Double Patenting Rejection Based on U.S. Patent 6,544,880

Claims 1 through 6 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 through 46 of U.S. Patent 6,544,880. In order to avoid further expenses and time delay, Applicant elects to expedite the prosecution of the present application by filing a terminal disclaimer to obviate the double patenting rejections in compliance with 37 CFR §1.321 (b) and (c). Applicant's filing of the terminal disclaimer should not be construed as acquiescence in the Examiner's double patenting or obviousness-type double patenting rejections. Attached are the terminal disclaimer and accompanying fee.
